TRE - TRAINING NEUROBIOLOGICAL RESILIENCE TO PREVENT TRAUMA, ENHANCE PERFORMANCE & OPTIMISE WELLBEING

Richmond Heath is a Physiotherapist, TRE Resilience Trainer and the National Coordinator of TRE in Australia.

He has a diverse background in both physical health and preventative mental health initiatives including youth suicide prevention.

Since introducing TRE to Australia in 2010 Richmond has provided trauma recovery workshops for survivors of Black Saturday, the Ipswich Floods and the Christchurch Earthquake, and trained more than 2500 people in the use of TRE for their personal health & wellbeing.

He has been involved in world-first research into the use of TRE for Restless Legs Syndrome, and with a background in high-level sport is pioneering the use of TRE to as a recovery and performance enhancing tool for elite athletes.

1440-1455

Interactive Sponsor

ZOLL Medical Corporation, an Asahi Kasei Group Company, develops and markets medical devices and software solutions that help advance emergency care and save lives, while increasing clinical and operational efficiencies. With products for defibrillation and monitoring, circulation and CPR feedback, data management, therapeutic temperature management, and ventilation, ZOLL provides a comprehensive set of technologies that help clinicians, EMS and fire professionals, and lay rescuers treat victims needing resuscitation and acute critical care.

1455-1515

MEDIC TRAINING: A PROPOSED PATHWAY TO PROFESSIONAL MASTERY

Major Aaron Tracey commenced his Army career in 1999, initially as an Aeronautical Engineer in RAEME, serving in a variety of aviation and non-Army group units. Following an instructional posting at the Australian Defence Force Academy in 2009, he commenced medical studies, posting to Close Health, where he has remained since 2016.

His operational experience includes serving as a linguist in Iraq, OP RESOLUTE, and domestic support to the civilian community during multiple natural disasters in North Queensland. He has supported aviation operations in PNG and during multiple major exercises, and has completed the Aviation and Underwater Medicine courses, in addition to being a AME qualified medical officer

Major Tracey is a Fellow of the Royal Australian College of General Practice, holds a Diploma in Child Health, and is completing a Masters degree in Traumatology. He currently serves as the Senior Medical Officer at 2 Close Health Company in Townsville. His interests include military retrieval, training systems, and combat health support.

1515-1535

TAJI MULTIPLE TRAUMA CASUALTIES - EXPERIENCES OF A MO

Captain David Johnston enlisted into the Australian Army reserve in 1986 into the RAINF. He Corp transferred into the RAMMC in 1992, and then into the Regular Army in 1995 as a Medical Assistant. Whilst he was a Medical Assistant and Medical Technician he served with Infantry, Engineer, Artillery, Logistic, Special Forces and Health units as well as an Instructor at HMAS CERBERUS Medical School. He deployed to East Timor in 1999 as part of INTERFET, and in 2007 on OPERATION ASTUTE. He also deployed to Solomon Islands in 2003 on OPERATION ANODE.

He attained the Rank of Warrant Officer Class Two before being accepted to study Medicine on Long term Schooling, graduating from Bond University in 2014. He completed his Internship and Residency at Caboolture Hospital and during this period he attained a Certificate in Emergency Medicine.

Captain Johnston was subsequently posted to the 2nd General Health Battalion as a Medical Officer. There he has completed his required courses as well as the Medical Officers Underwater Medicine Course. He deployed as the Medical Officer on the Army Aboriginal Community Assistance Programme in 2018 and then on OPERATION OKRA as part of Task Group Taji-X in 2019-20.

1535-1555

PREPARING FOR CAPTURE: THE ADF MODEL

MAJ Samantha Hodges was commissioned as a Psychology Officer in the Australian Army in 2007. Her diverse profile includes Forces Command, Joint Health Command, Intelligence units, training establishments, and broad experience on operations including Operations ASTUTE, SLIPPER, ACCORDION, AUGURY-B, HIGHROAD and VICFIRE ASSIST.

Major Hodges is currently posted to the Defence Force School of Intelligence (DFSI) where her role includes course instruction, staff officer duties, and clinical treatment for personnel in a joint environment. She is the senior psychologist for the ADF Conduct After Capture capability, and directly supports the training and certification of human intelligence and information operations personnel.

MAJ Hodges holds a B. Psychology (Hons) and a Masters of Clinical Psychology. She is currently enrolled in a post graduate course in Global Health Engagement through the United States Uniformed Services University of Health Sciences. MAJ Hodges is the co-author of two peer reviewed articles on: the use of telecommunications for therapy, and the importance of sub-clinical trauma in the ADF. A third article on the impact of UAV missions on the mental health of ADF operators is awaiting publication.
