1400-1420

ESTABLISHING COVID-19 CLINICS NATIONWIDE IN AN UNPRECEDENTED AND CHALLENGING ENVIRONMENT

Leo Cusack is an experienced project manager who has worked with Aspen Medical on a diverse range of disaster response and humanitarian projects. These have included managing the company's response to the Ebola crisis in Sierra Leone and Liberia in 2014-2015.

Leo was also responsible for the delivery of trauma and maternity services in Iraq for the WHO and UNFPA during the conflict predominately around Mosul in 2017/2018. In 2018, Leo was the lead at Aspen Medical for their verification as a specialist Emergency Medical Team by the World Health Organization. Aspen Medical remains the only commercial organisation in the world certified as an EMt for infectious disease outbreaks. Most recently Leo was the COVID-19 Project lead responsible

for support to cruise ships internationally, the General Practice Respiratory Clinic Program and also Aspen Medical's response to the crisis in Yemen.

Leo's early career was as an infantry officer in the Australian Army and he maintains a broad range of business interests away from his involvement with Aspen Medical.

1420-1440

SURGE CAPACITY OF AUSTRALIAN ICUS IN THE COVID-19 PANDEMIC

CMDR Anthony Holley BSc. MBBCh. DipPaeds. DipDHM. FACEM. FCICM

Anthony is an intensivist and emergency physician working at Royal Brisbane and Women's Hospital. He is a senior lecturer with the University of Queensland Medical School. Anthony is currently the ANZICS President. He is an examiner for the fellowship of the College of Intensive Care Medicine of Australia and New Zealand. Anthony has authored eight book chapters and 47 peer reviewed publications. He is a supervisor of intensive care training at the Royal Brisbane and Women's Hospital and is an instructor for BASIC and EMST (ATLS). Anthony serves as a representative for the National Blood Authority Critical Care Group in developing the Australian Patient Blood Management Guidelines. Anthony serves in the Royal Australian Navy and has deployed on multiple occasions. He has deployed to Afghanistan twice, the Persian Gulf, Operation Resolute, Iraq for four tours and most recently to the 2020 bushfires aboard HMAS ADELAIDE.

1440-1455

Interactive Sponsor

ZOLL Medical Corporation, an Asahi Kasei Group Company, develops and markets medical devices and software solutions that help advance emergency care and save lives, while increasing clinical and operational efficiencies. With products for defibrillation and monitoring, circulation and CPR feedback, data management, therapeutic temperature management, and ventilation, ZOLL provides a comprehensive set of technologies that help clinicians, EMS and fire professionals, and lay rescuers treat victims needing resuscitation and acute critical care.

1455-1515

ARE CBRN MASKS APPROPRIATE PPE FOR CIVILIANS TREATING SARS-COV-2 PATIENTS?

LTCOL Steven Adamson joined the Australian Army in 2006 after a 17-year career in the Royal Australian Air Force. He completed his medical degree at the University of Queensland and is a Fellow of the Royal Australian College of General Practitioners. He has experience in pre-hospital military medicine after postings to the 1st Close Health Battalion and, more recently, three years with the US Army Medical Department in San Antonio, Texas. He works currently as the Staff Officer Population Health in the Directorate of Army Health in Canberra.

BRIG Michael Reade is an intensive care physician, anaesthetist and clinician scientist, since 2011 seconded to the University of Queensland as the inaugural Professor of Military Medicine and Surgery. From 2015-2018 he was the Director of Clinical Services of the 2nd General Health Battalion, initiating the program that led accreditation as an RACS Level 3 Trauma Centre. As the Director General Health Reserve - Army, he has oversight of specialist clinical personnel and capability development in the Australian Army. His research programs cover trauma systems design, blood and fluid resuscitation in trauma, and traumatic brain injury. His frozen platelet trial program, conducted with the Australian Red Cross, aims to improve worldwide access to this vital component of trauma resuscitation.

1515-1535

HIGH FLOW OXYGEN HOOD FOR COVID-19; THOUGHT BUBBLE TO CAPABILITY

Dr Adam Storey is a member of the Medical Specialist Program of the Royal Australian Air Force where he works as a consultant in anaesthesia and hyperbaric medicine at the Royal Brisbane & Women's Hospital. Adam has been in the RAAF since Medical school in the 90s and first qualified as a General Practitioner before being sent overseas for training in aerospace medicine prior to posting to the RAAF Institute of Aviation Medicine. Adam has deployed multiple times in different roles, is married to Cassandra with whom he struggles to raise three young daughters and, in his downtime, enjoys tennis, fishing and the odd whiskey.

1535-1555

NZDF WELLBEING IMPACTS IN THE COVID-19 PANDEMIC ENVIRONMENT

Col Clare Bennett is the Director of Integrated Wellness for the NZDF. She joined the Regular Force in 1987 and has held a range of roles in NZDF (operational psychology, research, HR policy and strategy, and mental health) and in broader government sector.
